

Raja Rogers Meeting Notes  
February 27, 2007

|             |  |
|-------------|--|
| Raja Rogers | I'm in Lancaster right now. Any news? How are school programs going?   |
| Jane        | Many Govs are very experienced now in communication with schools. We go slowly. We follow the steps that are laid out. I am with my mother-in-law taking care of her.  |
| Raja Rogers | MAHARISHI has been saying that we speak the language that people understand.   |
| Steve       | MAHARISHI has said that a visit to mother is a visit to the Absolute.  |
| Alcine      | I'm also with my mother. The DAR has invited me to speak on TM. This is a contribution from my mother.   |
| Raja Rogers | Maharishi recently told one of the Rajas that Mother can give blessings that not even the Guru can give. Very important for us to take care of our parents   |
| Joe         | I'm in Fort Pierce, FL with my mother and father. They had a freak accident. My dad is okay, but my mother broke her arm and dislocated her shoulder.  |
| Ruth        | We are taking care of mothers, fathers and mothers. We're having better experiences in our program.  |
| Raja Rogers | We had an ice storm in FF and MVC. Power was off. Mother Divine ladies had the power off for about 2 days. Mayor Wynne is at the Brahmastan. I'm the mayor pro-tem. I helped organize moving the 100 Mother Divine ladies to warmer living situations. We took 15 at the Raj. Pundits were only without power for a short while until the MUM generators started.  |
| Jeff Murphy | We have moved ahead with one of the schools that was exposed to negative websites. We sent them a very nice letter that Bobby Roth wrote. The principal is ready to move ahead, but the superintendent is cautious. In March we will meet with the group of teachers that will hopefully learn. It's the one with 216 students. We lost the teen mother school – the Director got word from someone above her saying they won't be able to pursue this. We taught 3 teachers from a school – 900 students. We have another prospect with a lab school at a University. |
| Regine      | January – I went over my database and contacted all my meditators. 10 people came to an Adv lecture on Super Bowl Sunday. Had a refresher course 2 weeks later – 4 people (had 12 reservations). One Sidha got re-inspired and is going to FF very soon. We are starting an Enlightenment Club.  |
| Raja Rogers | Maharishi Jyotish dasas have an effect on each of us. Years ago we used Maharishi's program, "Passport for Perfect Health." So people would have all the MAV guidelines and MJ information. Maharishi said that the planets move us along.<br>In Estonia, Candace and I were teaching 100's of people for a long time. The last month I wasn't teaching anyone – but setting up lectures, etc. My chart indicated I had switched sub-dasas.  |
| Stuart      | Had 18 people at a refresher course this weekend – both short and long term people. We have filled up the RC scheduled for May. Planning a CIC in  |

|             |   |
|-------------|---|
|             | June. Taught 2 people two weeks ago. Will teach 2 people in Jupiter this weekend. And then had a lecture in Boca – all attendees were from Call Center referrals. Two are starting and using CitiAssist .Interesting that in this affluent area, two people who are starting need assistance to start.  |
| Steve       | Dori recently checked a lady from a family of 4 meditators who stopped for many years and they are all starting again. Dori went to MVC for the course. It had a striking effect on my experiences.   |
| Raja Rogers | We've gone through many cycles of the course – first Maharishi connected daily, then weekly. When he gives the course full attention, experiences improve. Bible story – A group of soldiers were going to have a great battle. This general had the inspiration to only take the soldiers that were very alert. He questioned the Lord about that. The Lord said no, just take those people. His army diminished by 50%. They were still successful. It's the quality of consciousness, not just the numbers. With the Inv America course, we have both the quality and the numbers. |
| Elaine      | Personal comment – Patrick and I moved my father to a very nice rest home in Mt. Pleasant IA this week (Susie Averbach recommended it) and then enjoyed a few days of the Invincible America course.  |
| Raja Rogers | Elaine and Charlie are both moving. Elaine to FF. Charlie to Portland, OR. Will still be working with us. Want to acknowledge both of them because they have done so much good and are very savvy about movement policies. They help all of us, including me, navigate through any tight spots and allow us to take advantage of movement programs.   |
| Steve       | Stuart and I spent quite some time with Mohandas in Valkenberg. He is supremely experienced. He sat by the side of the Astya vaidyas for a long time.   |
| Raja Rogers | He ran Lancaster for several yrs. Very very nice person. Around 2000, when we started the clinic in Boone, he came with Astya vaidya then and also to the Raj. You should take advantage of him if you can. The tour does need to be profitable in your location.   |
| Stuart      | Vaidya dates? Expenses?   |
| Elaine      | They are scheduled for Lexington, March 20-25, Nashville, March 26-March 28, Vero Beach, March 29-April 1 so far. Any other Center interested in a tour?<br>If you can enter expenses in NetSuite, then you can enter vaidya and Vedic Expert tour expenses. If you cannot, then with Raja Rogers' approval, we can enter the expenses in the Raja Domain NetSuite account. We are trying to keep Center tour costs down to 10-25%. Govs receive 25% of income. That leaves 50% for International.  |
| Raja Rogers | I would like to acknowledge Stuart's contribution over the years to MAV knowledge and expansion.  |
| Jane        | When you have an RX from a doctor for MAPI products and you have a Flexible Spending Account or a Health Savings Account (HSA), you can use those accounts to pay for herbs. This is according to Blue Cross/Blue Shield in FL.   |
| Steve       | You could promote it by saying, if you are in a 20% tax bracket, you get a  |

|                |  |
|----------------|--|
|                | 20% discount on MAPI products.   |
| Jane           | Travel expenses – domain wide or individually?   |
| Elaine         | This is being worked out still.  |
| Jeff<br>Murphy | Mohandas can train techs?  |
| Raja<br>Rogers | Will still be in Lancaster tomorrow. My cell phones are not working very well here. Drop me an email and I will call you in 1-2 days about this.<br><br>Jai Guru Dev |
